Work Completed Date:

July 26, 2011

Last Modified Date:

October 04, 2011

Hire Again:

Yes

Approximate Cost:

\$8,000.00

Description Of Work:

We had a new patio cover done. This included demolition of our former patio structure, patching some concrete, building a new patio cover, and wiring and installing lights and a ceiling fan in the new patio.

Member Comments:

We just had a new patio cover done and completed yesterday. The reason I am writing this so soon is because I am so completely thrilled with how it turned out and the whole process. When I first called to get an estimate, Paul called me back promptly, scheduled an appointment, and came to my house to take a look at the area for the patio. We discussed ideas which aided me in determining what I really wanted. His estimate was thorough and included the cost of the demolition of our former patio structure and some concrete patch, the cost of the new structure, as well as the cost of wiring and installing lights and a ceiling fan in the new patio. Paul met once more with me and my husband this time, and we started the process. The patio was started within 3 weeks and completed in 3 days. Paul was there each day talking to his crew and touching base with us. It went so smoothly due in large part to Paul, his rapport with his crew, the expertise of his crew, and his accuracy in the cost and timing of the project. Best of all, the patio is beautiful and something I am proud to have friends and family enjoy with us!
