Yes

Approximate Cost:

\$7,500.00

Home Build Year:

1973

Description Of Work:

Our old wood patio cover was demolished and removed and it was replace by an insulated Duralum "Weatherwood" cover.

Member Comments:

It was a very positive experience from beginning to end. The owner of the company, Paul Goldman, came to our home to determine what we were looking for and to give us an estimate. He was very thorough, listened to all of our questions and concerns and paid attention to every detail. He is very personable and easy to work with. Paul arrived here every day to make sure that his crew knew exactly what was to be done and to make sure that we were all on the same page. The teardown took about 1/2 of one day. The crew of 3, headed by Jose, was very efficient, hardworking and left the site very clean every day. The structure took a little more than 3 days to put up, with no disruption of our routine. The finished product looks fabulous and doesn't leak - we had a very heavy rain right after installation. Paul returned when the installation was complete to make sure that we were satisfied and that all materials had been cleaned up. Paul and his crew are very professional and obviously take pride in the company and in their individual jobs. We would definitely recommend them and wouldn't hesitate to hire them again.
